ABOVE | CHARLOTTE JUILLARD'S YOUTHFUL EYE FOR DESIGN LED TO THE REFRESHED DESIGN OF DUVIVIER CANAPÉS' DESIGNS, INSPIRED BY COASTAL FRENCH HOUSES.

# *The Legacy of French Design. Refreshed.*

Duvivier Canapés' legacy of furniture making draws on the history of French craftsmanship – its latest collaboration sees the esteemed manufacturer team up with Charlotte Juillard.

Bringing a youthful energy to the legacy of design house of Duvivier Canapés, Charlotte's collaboration has led to a seating range that's equally inspired by international style and traditional French aesthetics.

Like Duvivier, Charlotte has an unwavering passion for craftsmanship and design pieces with a subtle emphasis on the combination of materials: leather, fabric, wood, and glass. This is all clearly present in Jules' style and function.

Taking visual cues from the traditional tchanqué cabins on the southwest of France, the wooden base and legs of the modular system can't help but recall the platform legs of these timeless designs. The sofas, sectional sofas, armchairs, corner units, chairs, ottomans, table separators and

coffee tables comprising the range all channel elegant and aerial lines with their raised wooden structures giving an overall ethereal appearance.

The seating can be upholstered in fabric, velvet or rich full-grain leather that showcases the character and beauty of each hide. When combined, the fabric and leather emphasise colour and texture and accentuate the padded frame and upholstered cushions.

Quality furniture of the likes of Duvivier is an investment, and local distribution partner DOMO knows this, and offer a five-year unconditional guarantee on all frames, suspension and stitching. The Jules collection is now available at all DOMO Showrooms, bringing timeless French chic for all Australian design lovers.
